

INDUSTRY

AIR-CONDITIONING AND VENTILATION

AMBIENT AND PROCESS AIR TECHNOLOGY

Trend meets know-how

In 2007, KNAACK & JAHN extended its traditional industrial plant construction with the industrial air-conditioning and ventilation division. As a medium-sized company, we utilize our experience to plan and develop the new building, refurbishment and optimization of industrial air-conditioning and ventilation systems.

Modern ventilation systems improve efficiency, make workplaces more attractive and ensure long-term ventilation and energy efficiency.

Ask for our advice! We can seek out the right solution for every company – free from supplier contracts. That's because our job is to ensure your satisfaction. We back this up with over 45 years of experience.

And when can we start working for you?

Branches of industry

- Foodstuffs
- Chemicals
- Printing
- Aviation
- Wood processing
- Pharmaceuticals
- Automotive
- Environmental protection
