

**Thanks for 50 years**

**KNAACK & JAHN** 

**SAID. DONE!**

## DEVELOPMENT ORIENTED SINCE 1965

## THAT'S HOW WE'LL WORK IN FUTURE

### Foresight + Expertise

Thank you for 50 years of meaningful successes in a compact, ever-changing world of work and safety oriented values.

Today, KNAACK & JAHN with 450 employees is one of the most progressive and reliable partners of the German industry in pipeline and plant construction.

Since September 1965, our strategically oriented development in line with market requirements resulted in 1996 in the spin-off and establishment of KNAACK & JAHN Anlagenbau GmbH in Leuna and further outsourcing of our business sectors:

K+J Haustechnik GmbH in 2000, Knaack & Jahn Schiffbau GmbH in 2006, both in Hamburg.

At present, in this golden anniversary year, our business sectors continue to perform positively as well as in a forward-looking manner. Through the professionalism and personality of our staff, our distinct market expertise and successful discussions with our customers. Thanks for now and for the good years to come. Even better: For new decades with mutual foresight and expertise.

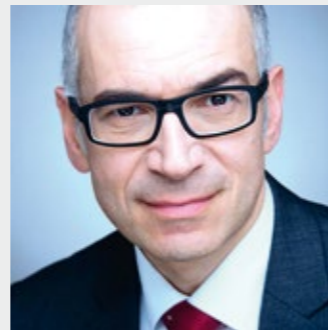

## CUSTOMER PROXIMITY AS A RECIPE FOR SUCCESS

## QUALITY AND SERVICE TO THE CORE

### Principles + Perspectives

The outcome of our staffing credo, which also currently consists of creating long-term security of employment at KJ, is not simply a principle but also ensures the professional development and standard of our employees. Through mutual trust and thus also the entrepreneurially responsible action of our staff.

In many cases, a time-limited sense of an employment ideology within the company is not a benchmark for quality and security. Especially in our business sector. Initial corporate training, clear longevity, dual study possibility and order-oriented dialogue offensives at KJ also ensures that we will have active young high-flyers.

Our perspectives for ensuring a forward-looking corporate structure and time-oriented performance are also determined by the high quality of our suppliers – always cooperative based on partnership. Thanks also for that.

Said and done continues to be our motto. Our principles and perspectives are the standards for this. One only has to consistently activate them. That's what we do, every day.
